

MISSION STATEMENT

AEPI (Anson Events Planning, Inc) is dedicated to helping improve the quality of life for those in need of medical care, and education by providing referrals and listings for:

- Quality healthcare providers, Free Clinics and Sliding Scale Clinics for the under-insured and uninsured.
- Education growth through scholarship opportunities
- Referral listings for young people with medical conditions or disabilities

INTRODUCTION

The Patient Protection and Affordable Care Act (Public Law 111-148) was signed into law by President Barack Obama on March 23, 2010, along with the Health Care and Education Reconciliation Act of 2010 (signed March 30). The laws include health related provisions that are in effect over the next four years.

The number of people without health insurance is the primary concern raised by advocates of health care reform. Despite recent laws, many people remain without health care coverage, or are deterred from needed treatment for preventive health issues, illnesses and chronic disease due to the cost of out of pocket medical expenses. The fear of rejection by medical providers due to lack of insurance coverage is problematic. There are many who are not aware of where legitimate medical providers are located who provide affordable quality health care.

Therefore, the (AEPI team) proposed to work with the Laborer's District Council (LDC) the Healthcare Benefits Coordinators and staff to create a guide for members, their families, and the community to get access to comprehensive sliding scale healthcare providers, reduced prescription purchases and/or prescription plans, and dental care providers that are free or at a minimal cost.

GETTING STARTED!

Below is a list of medical providers who offer reduced cost or sliding fee scale programs. Most programs have eligibility requirements. These sliding fee scale programs are for people who are uninsured or under-insured. These fee scale providers will allow you and your family to pay a reduced fee for covered medical services. You will need to verify your income and meet their eligibility guidelines. We encourage you to call one of your local clinic locations in order to make an appointment.

Follow these simple steps:

- A. Look at the list of medical providers that's listed according to counties.
- B. Find the medical provider that is closest to your home.
- C. If you are unsure of the exact location of the medical provider, you can use the area code of the listed providers phone number as a guide.
- D. Or simply contact provider directly for directions.
- E. Schedule an appointment

MEDICAL CARE FOR CHILDREN

1. CHIP:

The Pennsylvania CHIP program has a goal of providing health insurance coverage to all children and teens that live in Pennsylvania and who don't otherwise have access to health care benefits.

All uninsured PA children (up to age 19) who don't not have access to medical coverage are eligible to receive comprehensive major medical coverage via the Pennsylvania CHIP program regardless of their household income. Contrary to popular belief, you cannot earn too much money to be eligible to CHIP program in PA. Health insurance coverage is administrated by private health insurance companies in Pennsylvania; it depends on where you live. **CONTACT:1-866-960-8466**
